<p>Not available with CMA specified Simple Attended Funeral Service</p>	<p>Critical inclusion Your named funeral director will almost always be the person who sits with you to make the arrangements and will be your first point of contact, and your main contact, on all matters relating to the funeral arrangements. They will also be the person directing and organising the funeral service on the day. This is very unlikely to be the case with other funeral providers and the significance of this is hard to overstate. You simply cannot get the same level of connection or support from a complete stranger knocking at your door on that day, when compared to meeting a familiar face who has been there with you throughout. This is one of the most significant differences between our high standard of service and that which you will receive from other providers.</p>
